

How Signal works

From thousands of startups to one good decision

Thousands of new crypto + AI startups

far too many to read by hand

Signal — runs automatically

1

Source

find rising companies

2

Score

rank vs the thesis

3

Memo

source-cited write-up

4

Dashboard

ranked digest

A short, ranked, explained shortlist

A partner reviews and decides → invests

a human always makes the final call

Reliability check (backtest): would Signal have caught past winners?
